Summary

I'm a creative professional with a passion for building impactful digital experiences. With expertise in web development, programming, and UI/UX design, I thrive on solving problems and bringing ideas to life. Always eager to learn and adapt, I am driven to create functional and engaging applications that make a difference.

Education

BTech   **KIT-KalaignarKarunanidhi Institute of Technology**, Artificial Intelligence and Data Science   Nov 2022 – Present
- GPA: 7.38/10
- Coimbatore, Tamilnadu.

HSC   **Seventh-Day Adventist Matriculation School**, Higher Secondary   June 2021 – May 2022
- Percentage: 73%
- Madurai, Tamilnadu.

Technical Skills

Technologies & Tools: Html, Css, Javascript, React.js, Next.js, C, Python, MySQL, Git, Github, Adobe Illustrator, Figma.

Interests: Ui/Ux Design, Data Science, Machine learning, Operating System, System Design.

Experience

Codebind Technologies, Embedded-systems Inplant training   Coimbatore, TN   Feb 2024
- Gained valuable experience and knowledge in embedded systems during my internship, developing a strong foundation in embedded systems, Iot, micro-controller programming, sensor interfacing, and Raspberry pi.

Appin Technologies, Data Science Internship   Coimbatore, TN   July 2024
- Learned new methods and techniques involved in data science that can aid in real-time data analysis, had hands-on experience in preprocessing, manipulating and visualizing a given dataset and made a insightful dashboard using powerbi.

Projects

CellSaver   github.com/DharuNamikaze/CellSaver
- Created an app that informs users about their battery's wear level, helping them manage performance to prevent excessive battery drain which native apps fails to deliver. Provides insights for maintaining laptop battery health.
- Tech Used: Python, Html

typeD   github.com/DharuNamikaze/typeD
- Typed is a minimalistic typing app inspired by MonkeyType, integrating various javascript libraries. providing users a minimal and user-friendly interface with reports about their typing skill.
- Tech used: React.js, Tailwind Css, chart.js, express.js

SmartPick

- Developed a chatbot that recommends personalized tech products based on user prompts for budget and specific needs. Provides targeted product suggestions to users' tech-buying decisions.
- Tech Used: Next.js, Tailwind Css, Gemini 1.5

github.com/DharuNamikaze/smart-pick

Chroniclesofyou

- A Interactive text-based web game, enabling user to experience soundtracks, sfx based on thier choice, the story continues according to their choice potentially creating a chronicles of them.
- Tech Used: Next.js, Tailwind Css, Chart.js

[DharuNamikaze/chroniclesofyou](https://github.com/DharuNamikaze/chroniclesofyou)

CodeXP

- Developing a Gamified learning platform for coding, learn programming technologies such as front-end, back-end, database, more to come.
- Tech Used: Next.js, Tailwind Css

github.com/DharuNamikaze/codexp

Achievements

- Codechef - Ranking: 1196, Attended 45+ weekly contest.
- CodeTrack - 24Hrs hacakathon conducted by KIT-CBE, secured notable spots 4 times.
- CodeDebugging - Attained 3rd place in code-debugging contest, conducted by & at AIT-CBE.

Certifications

Google   Aug 2024 - Sep 2024

- Ux Design
- Foundations of Data Science
- Foundations of Digital Marketing
